MOIZ IRSHAD

Mobile Engineering Lead | Engineering Manager (Mobile)

12+ years mobile engineering · 4.5+ years leading a 9-person mobile team · iOS, Android & Flutter

Karachi, Pakistan · +92 333 3043202 · moiz.14jan@gmail.com · linkedin.com/in/moiz-irshad · Available immediately

SUMMARY

Mobile engineering lead with 12+ years building iOS, Android and Flutter products, including 4.5+ years leading a 9-person mobile team (6 engineers, 3 QA) at Danat eVentures. Delivered 12+ client apps for Middle East clients with 100% team retention and 95%+ client satisfaction, and set the architecture, code-review and Agile/Scrum standards that cut production bugs by 35%. Since 2021, a hands-on technical owner at product scale: early mobile hire at DubiCars (500K+ downloads), sole iOS engineer at Bykea (2M+ DAU) and sole Flutter developer at FITT Meals. Brings AI-enabled engineering workflows to developer productivity.

LEADERSHIP HIGHLIGHTS

- **People leadership:** led a 9-person mobile team (6 iOS/Android engineers, 3 QA) for 4.5+ years with **100% retention**, and interviewed candidates for team hiring.
- **Mentoring and growth:** mentored 2 junior developers to mid-level within 18 months; promoted from engineer to lead within 20 months.
- **Engineering standards:** established MVVM, code reviews, reusable component libraries and Agile/Scrum, cutting production bugs by **35%**.
- **Delivery and stakeholders:** owned sprint planning, the technical roadmap and client relationships across a 12+ app portfolio, with **95%+ client satisfaction**.
- **Engineering efficiency:** cut release time from **4 hours to 30 minutes** with CI/CD at both Danat and DubiCars, and cut cross-platform development time by **40%** by driving Flutter adoption.

CORE EXPERTISE

Leadership: Team leadership, mentoring and career development, interviewing, sprint planning, technical roadmaps, Agile/Scrum

Engineering Practice: Architecture governance, code review and engineering standards, release management, CI/CD, developer productivity

Stakeholders: Client and stakeholder management, requirements gathering, HLD/LLD design, cross-functional delivery with product, design and QA

Mobile: Swift, SwiftUI, UIKit, Objective-C, Swift Concurrency (async/await), Flutter, Dart, Riverpod, Bloc, Kotlin

Architecture: Clean Architecture, MVVM, VIPER, Repository Pattern, SOLID, Dependency Injection

Platform & Tooling: REST APIs, GraphQL, WebSockets, Firebase, Stripe, Fastlane, GitHub Actions, TestFlight, Jira

Security & Quality: SSL pinning, mTLS, OAuth 2.0 / JWT, XCTest, Flutter unit and widget tests, Crashlytics, Sentry

AI-Enabled Engineering: Claude Code, Claude, Cursor; AI-assisted development practices for debugging, testing, refactoring and documentation; developer productivity and engineering efficiency

EXPERIENCE

Senior Flutter Mobile Application Developer **Mar 2026 – Present**

FITT Meals | Dubai, UAE

Healthy meal-delivery company · 2,500+ customers · 40,000+ meals per week · expanding to Saudi Arabia in 2026

- Own mobile delivery end-to-end as sole developer, having built the iOS and Android Flutter apps from scratch.
- Set the technical direction (Clean Architecture, MVVM, Riverpod, Stripe payments, Firebase and Sentry monitoring) and run the full release lifecycle to both app stores.

Senior Software Engineer (iOS, Android & Flutter) **Apr 2021 – Mar 2026**

DubiCars | Dubai, UAE (Remote)

UAE automotive marketplace · 500K+ downloads · 4.5+ app rating

Remote role, held in parallel with Danat eVentures (to May 2022) and Bykea (May 2022 – Mar 2023).

- Joined as an early mobile hire and owned mobile delivery across iOS, Android and Flutter, sustaining a 4.5+ rating and a 99%+ crash-free rate.
- Drove the move to Flutter, shifting feature work to a shared codebase across iOS and Android and cutting cross-platform development time by 40%.
- Set performance standards that cut iOS startup time by 50% and memory usage by 35%; architected listings, search, payments, messaging and delivery tracking.
- Built CI/CD with Fastlane and GitHub Actions; received the Dubi Hero of the Month award (Feb 2025).

Senior iOS Developer **May 2022 – Mar 2023**

Bykea | Karachi, Pakistan

Pakistan's leading ride-hailing and delivery platform · 2M+ daily active users

- Sole iOS engineer with full technical ownership, sustaining a 99%+ crash-free rate and 4.5+ App Store rating.
- Owned real-time location tracking and live driver matching (WebSockets, MapKit, Core Location), payments and release management end-to-end.

Mobile Development Lead **Oct 2017 – May 2022**

Mobile Development Engineer Feb 2016 – Oct 2017

Danat eVentures | Karachi, Pakistan

iOS and Android client apps in finance, real estate and e-commerce for Middle East clients

- Led a 9-person mobile team (6 iOS/Android engineers, 3 QA) for 4.5+ years with 100% retention, and interviewed candidates for team hiring.
- Mentored 2 junior developers to mid-level within 18 months.
- Owned sprint planning, the technical roadmap and code reviews; established MVVM as the team-wide architecture and introduced Agile/Scrum, cutting production bugs by 35%.
- Acted as primary technical contact for clients, owning requirements gathering, HLD/LLD design and delivery of 12+ apps (500K+ combined users) with 95%+ client satisfaction.
- Introduced CI/CD pipelines that cut release time from 4 hours to 30 minutes, and managed the Apple Developer Program, certificates and enterprise distribution across the portfolio.

Tech: Swift, Objective-C, UIKit, MVVM, Firebase, REST APIs, Fastlane, Git, Agile/Scrum

EARLIER EXPERIENCE

iOS Developer, Innovative Solutions, Karachi **Dec 2014 – Jan 2016**

Built native iOS apps in Objective-C and Swift; unit testing, bug fixing and performance optimisation.

Junior iOS Developer, SysTellex Inc., Karachi **Aug 2014 – Nov 2014**

Built native iOS apps with Objective-C, Core Data and Cocoa Touch.

EDUCATION

Master of Computer Science (MCS), University of Karachi, Pakistan 2015 – 2016

Bachelor of Computer Science (BCS), University of Karachi, Pakistan 2009 – 2013
